The following are the instructors:  
Col. Jas. W. Willson, Superintendent  
and Mathematics.

L. Martini-Mancini, Assistant Sec-  
retary and Instructor Modern Lan-  
guages.

J. B. Wright, Commandant and In-  
structor Sciences, etc.

C. N. McWhorter, Athletics and  
History.

J. M. Loring, English and Greek.

M. D. Nave, Chemistry, Latin, etc.

T. H. Wrenn, Assistant in Busi-  
ness, Typewriting, etc.

Jack Fletcher, Instructor of the  
Cadet Band.

All of the teachers are college  
men, and the outlook for the school  
is exceedingly bright. The school at  
the present time is larger than it  
has been since it was organized.

The cadets this year are much larger  
than last year and there are fewer  
cadets in the preparatory depart-  
ment. On account of the increase  
in the number of cadets the mess  
hall will be enlarged at once.

## A Youthful Party.

Little Dorothy Burrus entertained  
a number of her friends at a party  
yesterday afternoon from 3:30 to  
6:30, the occasion being her seventh  
birthday. Quite an amusing game of  
spearing apples caused considerable  
excitement among the older as well  
as the younger ones present. A  
number of apples being placed in a  
large tub of water, each child was  
given a fork and allowed one minute  
in which to spear and remove from  
the tub as many apples as possible.  
Bertha Brown received first prize, a  
lovely little gauze fan, Bernice Shep-  
herd receiving the "booby." A large  
rug was then placed on the grass  
and the children seating themselves  
upon it were served with dainty re-  
freshments. Each one received a  
souvenir of the occasion. Dorothy  
received many nice presents, but  
none more acceptable than five large  
blackberry pies, a gift from Lincoln  
Whiteman.

Mrs. James Garrard, Miss Laura  
Henry and Mrs. Charles Whiteman  
assisted Mrs. Burrus and Miss Mal-  
mee Haynes in entertaining the chil-  
dren.

Those present were: Dorothy Bur-  
rus, Carrie Smith Kittle Thornton,  
Dola Thornton, Easter Prager, Lo-  
rean Whiteman, Margerite Lewis,  
Clara Ogle, Bernice Shepherd, Re-  
becca Skipwith, Ruth Stone, Byrd  
Wall, Lillian Garner, Bertha Brown,  
Maggie Brown, Ruby Bean, Pauline  
Wilson, Dorothy Walker, Irene Hill,  
Eugenia Flournoy and Ruth Reed.

## A Murder At Pecos.

The report reached the city  
last evening from Pecos, Texas,  
that a man named Pratt shot  
and killed a Mr. Mineberg yes-  
terday morning at that place. It  
seems that Mineberg was shot  
in the back and instantly killed.  
The murderer escaped but was  
captured eighteen miles from Pe-  
cos and lodged in jail. Details  
of the murder are meagre.

## To the Public.

I wish to say through the col-  
umns of the DAILY RECORD of  
Roswell that Murray & Sanger  
have built and completed my  
house on South Main Ave. and I  
do say they have given the be-  
st of satisfaction and I will recom-  
mend them to others that want  
to build as they do all work ac-  
cording to agreement and I find  
them to be straight-forward and  
honest gentlemen. 152 2t

## Don A. Sweet Here.

Don A. Sweet, traffic manager  
of the Pecos Valley & Northeast-  
ern, arrived here last night and  
is registered at the Grand Cen-  
tral. He has the delay in the  
passenger train last evening was  
caused by four freight cars be-  
ing derailed two miles north of  
Portales and one was full of lum-  
ber and had three tramps in it  
when it left the track. It took  
some time to get them out, but  
strange to say, they were in-  
jured very slightly.

## Public School Notice.

In compliance with the law of  
New Mexico all children who  
have not been successfully vac-  
cinated within the past year  
must be vaccinated before being  
allowed to enter the public  
schools. The law directs that  
the vaccination shall be done by  
the health officers of the county  
or under his directions. Dr. W.  
T. Joyner is the health officer  
for Chaves county. He has ap-  
pointed Dr. C. M. Yater and Dr.  
Phillips as his assistants. All  
certificates of vaccination must  
be signed by one of the above-  
named physicians.

By order of the Board of Edu-  
cation. 152 2t

## Picture Display.

The picture display on the  
court house lawn tonight will  
consist of about seventy-five  
views of the Pecos valley and  
about the same number of ad-  
vertisements. The canvass is  
about fifteen feet square and the  
pictures will cover the canvass.  
If you wish to see how the Val-  
ley will be represented by Mr.  
Page and the car, come out to-  
night and thus show your inter-  
est and good will. The Chamber  
of Commerce has gone to great  
expense and labor to get up the  
very best display possible, and  
the people should show their ap-  
preciation by a liberal contribu-  
tion of products and by kind  
words of encouragement. Mr.  
Graham who has had charge in  
person of the arrangement, as  
well as all officers of the Chamber  
of Commerce has given his ser-  
vices free. Come out and see  
what has been done.

Richey & DeFreest have added  
to their fruit display in their  
window on Main street. They  
have apples from the Netherland  
place and L. F. D. stock farm  
and some very fine pears from  
Charles DeBremont's place.

## How To Keep Apples.

At a meeting of the Missouri val-  
ley horticultural society, Secretary  
Goodman said he could keep from  
3,000 to 4,000 bushels of apples in  
his cellar. He first sprinkled them  
with a solution of copperas and then  
piled the apples as high as possible  
in the bins. He did not want too  
much ventilation, as in his experi-  
ence the apples exposed to the air  
rotted worse than in the middle. Ap-  
ples left in piles have a gray coating  
formed on the outside, and if they  
once reach this stage they are com-  
paratively free from rot. The coat-  
ing is formed in from two to six  
months, and most of the rotting is  
done during that period. The cellar  
should be sprayed or sprinkled fre-  
quently to stop all fungous growth.  
He also advocated building storage  
houses over springs, as the flow of  
the water will keep the house cool,  
and also give sufficient ventilation.  
Another method, where ice is kept,  
is to have the apples stored in a cel-  
lar under the icehouse, the floor a-  
bove being tight to prevent leakage.  
This is approximately the method a-  
dopted in one of the cold storage  
houses in Kansas City, in which ap-  
ples have been kept for three years  
with remarkable good results. St.  
Louis Globe-Democrat.
